

Answer sheet 2**I. Write one unique feature of the type of houses given below.**

Stilt House	Igloo
They are built on poles or wooden stilts that prevent flowing water from entering the house.	They are made of ice blocks.
Houseboat	Mud House
They are built on boats and float over water bodies.	They are built with mud which makes in cool during summers.

II. Write two differences between houses in cities and houses in towns.

	Houses in Cities	Houses in Towns
Difference 1	Houses in cities are mostly permanent houses that are built very close to each other.	Houses in towns can be kutcha houses and are far away from each other with lots of open space.
Difference 2	Houses in cities are of many stories like the apartment buildings that are built on top of one another.	Houses in towns are not multistoreyed.
